 Storage Zebra Yoko (LM), Dark Grey (ML)

1. Simple stack-on storage with minimal configuration. Available in various sizes and two types to choose from; the swing door and open shelf.
2. The drawer unit features detailed storage space and functionality. It gathers documents in the internal drawer and allows the hanging of A4 and foolscap sized lateral files.
3. The A.H. Meyer outlet unit for power voice and data is stowed neatly from sight but easily accessible. It comes in various numbers and types of outlets to choose from, dependent on requirements. Smart and neat design whilst ensuring safety and quality.

Stack-on modular storage creates a landscape of varying height levels. Storage options of 1 drawer, 2 drawers, swing door and open shelf are available to support users' preferences and functionality. Trapezium-shaped tabletops of different sizes adds dynamism to the linear layout.

Diversity in style and feel can be created with the right colour combination to accommodate users' preferences- the white and light tones for a lively and easy-going feel, or the dark and heavier tones for a more classic look. Select from a range of premium finishes, available in solid colours or wood grain. Finely polished aluminum legs or stainless steel base enhances and compliments the image.

Technical Specifications

Storages

Are made of 18mm and 30mm thick melamine-faced chipboard using KD fittings. Optional soft-closing feature for drawers and swing doors is available.

Drawers

Filing drawers can fit A4 and Foolscap size hanging file. It has full extension, ball bearing slides.

Melamine Faced Chipboard

18mm and 30mm thick European E0 grade melamine-faced particle board with impact resistant 3mm PVC edging.

Worktops

All worktops, depending on finish, come in either 25mm thick MDF or 30mm thick particle board. E0 grade board is available upon request.

Steel Components

Tabletop spacer is made of steel, which is treated and powder coated to a minimum of 50 microns. The round base table support is made of stainless steel with brushed finish.

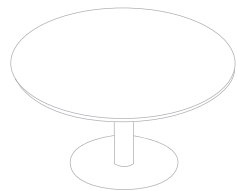

Table Legs

Moulded from (Aluminium Die Castings) ADC-12 with satin polished.
